

SYRRIS

Flow Chemistry Workshop 24 May 2018

REGISTER NOW

Improve the safety,
quality and speed of your
chemistry with our free
1-day workshop.

Join us for our FREE 1-day workshop
at UCD to learn about modern flow
chemistry techniques and discover the
benefits that flow chemistry can bring to
your experiments.

In partnership with UCD and Carl Stuart.

Dr. Marcus Baumann, UCD
Prof. Pat Guiry, UCD
Donal O'Sullivan, Carl Stuart
Clodagh Walsh, Carl Stuart

Venue Room S1.67
UCD School of Chemistry,
Science Centre South

Agenda 09:30-16:15

09:30 - 09:45	Welcome and Introduction
09:45 - 10:00	Welcome and Introduction - Prof Pat Guiry, Head of Organic Chemistry, UCD
10:00 - 11:00	Principles of Flow Chemistry Why Perform Chemistry in Flow?
11:00 - 11:15	Coffee Break
11:15 - 11:45	Development of Scalable Flow Approaches Utilising Insoluble Substrates - Dr. Marcus Baumann, UCD
11:45 - 12:30	Practical Session in the Lab
12:30 - 13:15	Lunch
13:15 - 13:45	Advanced Applications of Flow Chemistry
13:45 - 14:30	Practical Session in the Lab
14:30 - 14:45	Coffee Break
14:45 - 15:30	Batch to Flow Conversion
16:00 - 16:15	End
